WAST CROWDS GREET WILSON

Actors Agree to An "Open Shop" TELLS AUDIENCE STRIKE ENDED; THEATERS WILL REOPEN TODAY TREATY WILL BE RATIFIED SOON

(BY A. P. NIGHT WIRE.)

NEW YORK, Sept. 5.—The actors' strike, which started nearly four weeks ago in New York and resulted in the closing of nearly 200 theaters in this and other cities, was called off early today under an agreement which was declared to be virtually a complete victory for the Actors' Equity Association.

Augustus Thomas, playwright, who arranged the conference, announced the actors had agreed to an "open shop" and that all differences had been adjusted. Francis Wilson, president of the Equity, stated the settlement was "satisfactory to both sides." It is expected the theaters will reopen today.

Out of the country stating that the stage hands had walked out last night. He added, however, that he was not worrying because the actors' strike had closed many of them and it was "only an expense" to keep the stage hands on the "dark-theater" pay roll.

Also were sent to stage hands in 149 theaters throughout the country. Theaters in New York and other cities that had been ordered by the Actors' Equity Association to close, were now being taken against the actors' strike because they were ordered by union officials as large as the managers' "or where the productions booked 'by or for' the Equity, stated the settlement was 'satisfactory to both sides.'"

Robert stated last night that he had received reports from 149 house managers of the theater interests through-

(EXCLUSIVE DISPATCH.)

WASHINGTON, Sept. 5.—When Congress takes up the task of revising the revenue laws it will find itself unable to repeal any of the present taxes without finding other means of raising money. This is the belief of Representative Fordney of Michigan, chairman of the House Ways and Means Committee, who said today he could see no hope of any reduction in taxation for many years to come.

LEAGUE'S COURT IS VITAL.

Lansing Tells Bar Association of Need for International Tribunal.

(BY A. P. DAY WIRE.)

BOSTON, Sept. 5.—Secretary Lansing, before the American Bar Association here today, in his first public speech since returning from the Peace Conference, gave a warning that the theory of internationalism, of "moralism," which received great impetus during the war, constituted a grave danger to world order, but expressed his conviction that democratic nationalism as sanctioned by the Peace Conference would survive as the basis of society.

SECOND PACIFIC CABLE IS ASSURED

(BY CABLE AND ASSOCIATED PRESS.)

LONDON, Sept. 5.—George G. Ward, vice-president of the Commercial Cable Company, who has been in London for the purpose of arranging for the manufacture and the laying of a second cable from San Francisco across the Pacific, informed the Associated Press today that negotiations had reached a point where a second cable was virtually assured direct from San Francisco by way of Midway Island to Japan. Mr. Ward said:

BY PHILLIP KINSLEY.
Special Correspondent of the "Times" on Board the President's Train.
(EXCLUSIVE DISPATCH.)

ST. LOUIS, Sept. 5.—Armed isolation or peaceful partnership. There is no other alternative before the United States today, according to the picture of the international situation drawn by President Wilson tonight in his address on the League of Nations before 10,000 persons at the St. Louis Coliseum, the battle ground of many political conventions.

It was a new sort of speech for this old hall. Parties were buried. The President said he sometimes wished that both political parties were smothered in their own gas.

The President was cheered for more than four minutes when he entered the hall. Nearly everyone in the vast auditorium who greeted him at the end of his day in St. Louis carried a small American flag. They cheered until they were hoarse. Gov. Frederick T. Gardner presented him to the people as the "father of world democracy" and this occasioned another long period of applause.

"Shall we attain the fulfillment of our victory?" asked the Governor. "Yes, yes!" cried the people.

The President said that he ought to reject the German treaty altogether or change it in such a way as to make it necessary to negotiate a new peace in many essential particulars. We cannot do the latter alone, he said, and other nations will not join. The only thing left for America to do is to "stand alone in the world."

He then gave a picture of what that would mean to him. Only those ignorant of the world, he said, could think that we could stand alone. He increased the estimate of Herbert Hoover that it would take \$3,000,000,000 to \$5,000,000,000 in advance credit to rehabilitate Europe. He said we must carry the burden of reconstruction or be ruined. He asked if the people wanted the financial affairs of the world in the hands of other nations ready to use them as a lever.

"If we are going to keep out in order to prey on the rest of the world we ought to be frozen out," he said. He said the need of war was in world industrial and commercial rivalry. If we want to be hostile rivals of the rest of the world we must have a great standing army and have every citizen trained in arms.

BURDEN OF ISOLATION. This would not mean reduction in taxes, he argued. It would mean an increase in the present taxes. "We can stand the war," he said, "but we cannot stand the burden of isolation."

"We must organize like the late German government, which, after all, was most efficient to handle an armed nation. We must have a great army system."

"I have no dreams about it all," he said. "I have the evidence of the things I have seen with awakening eyes."

He spoke of an alliance of the strong European nations and Japan—all our rivals. If we become partner under the league, he predicted that we would be the senior partner and hold financial leadership and commercial supremacy.

He suggested that perhaps some of the critics of the league had not read the covenant. He said that if he could know which one he would be the most dangerous to their immediate interests.

"Let us then with a little delay as possible," said he, "establish an international tribunal or tribunals of justice with The Hague court as a foundation. Let us give an easier, a cheaper and a better procedure than now exists; and let us draft a simple and concise body of legal principles to be applied to the questions to be adjudicated."

Speaking of the plans of the Peace Conference to place on trial in a judicial court the German Emperor, Mr. Lansing recited that it was the commissioners of the United States who stood opposed to such trial, although "it was recognized that he had committed a great moral crime, an unpardonable offense against humanity."

The stand of the American commissioners, he said, was based on the conviction that there was no provision of written or unwritten law for the definition and punishment of crimes against humanity.

In conclusion Mr. Lansing reiterated that "nationalism must be maintained at all hazards," and that "it is equally imperative that the nation individualism must not be supplanted by classism."

True peace between nations would come, he said, only when the conduct of nations toward one another was governed by just laws and when they submitted their controversies to an impartial judiciary.

STEEL UNIONS THREATEN CHAOS.

Unless the President Can Arrange a Conference Between Officials of Industry and Organization Leaders by Tuesday, Strike Looms, Wires Gompers.

(BY A. P. NIGHT WIRE.)

ST. LOUIS, Sept. 5.—President Wilson today replied to a telegram sent him by Samuel Gompers, president of the American Federation of Labor, on behalf of the steel workers. This was just before the President's special train pulled out of the station. The President did not give the nature of his answer, remarking to his secretary that he did not care to announce it at

BY ARTHUR SEARS HENNING.
(EXCLUSIVE DISPATCH.)

WASHINGTON, Sept. 5.—Unless President Wilson can speedily arrange to bring about a conference for adjustment of differences between organized steel workers of the country and the States Steel Corporation, the industrial peace conference set for October 6 in Washington may face a general strike of steel workers that threatens to throw plans for economic stabilization of the country into chaos.

Samuel Gompers, president of the American Federation of Labor, in a telegram sent to President Wilson today, urged him to bring about a conference with steel corporation officials before next Tuesday, on which date presidents of the twenty-four international unions in the steel industry will meet here to decide on a course of action.

Frankly President Gompers and executive officers of the organized steel workers declared they have had difficulty thus far in restraining a strike and can give no promise of ability to curb the determination of the workers to use the strike weapon upon steel corporations which refuse to recognize and treat with the unions.

EFFECT OF STRIKE FEARED. Should such a strike occur its general effect upon post-war industrial conditions is feared and leaders admit that an upheaval of organized labor in the midst of the President's efforts to bring capital and labor together upon a new footing would make the task of that conference more difficult than ever.

The telegram from the President signed by Mr. Gompers was prepared at the instance of the steel workers' executive committee after a conference here this morning which adjourned until next Tuesday to give the President time to attempt a settlement of the difficulties which reached a climax when E. H. Gary, chairman of the board of the steel corporation, refused to meet a committee of the organized workers. The executive officers also attached their names to the message to the President.

They were John Fitzpatrick of Chicago, chairman of the committee; D. J. Davis, William Hannon and Ward J. Evans and William C. Foster.

THE TELEGRAM. "The Executive Committee," the telegram reads, "representing the various international unions in the iron and steel industry met today to consider the awful situation which exists in many of the iron and steel industry centers. The coercion, the brutality employed to prevent men and unions from meeting in halls engaged upon private property, in the open air, the thugery of the corporation's emissaries, the wholesale discharge of numbers of men for no reason than the one assigned, that they have 'become members of the union, have brought about a situation that it is exceedingly difficult to withhold or restrain the indignation of the men and the resistance that they declare it is their purpose to prevent."

"The Executive Committee relying upon the case as presented to you last week, and your earnest declaration to endeavor to bring about a conference for the honorable and peaceful adjustment of the matter in controversy, have thus far been enabled to prevail upon the men not to engage in a general strike."

URGE PROMPT ATTENTION. "We cannot now affirm how much longer we shall be able to exert that influence, but we urge you, even in the great work in which you are engaged, to give prompt attention to this situation. If the steel workers' strike occurs, it will be a disaster to the country and to the President's efforts to bring capital and labor together upon a new footing."

"We urge you, even in the great work in which you are engaged, to give prompt attention to this situation. If the steel workers' strike occurs, it will be a disaster to the country and to the President's efforts to bring capital and labor together upon a new footing."

NIGHT ADDRESS IN ST. LOUIS.

Wilson Shows How America Would Have to Play Lone Hand if Treaty is Not Ratified.

(BY A. P. NIGHT WIRE.)

COLISEUM (St. Louis) Sept. 5.—President Wilson in his address here tonight said:

My Fellow-countrymen: We have met upon an occasion which is too much too solemn to care how we look. We ought to care how we think, and I have come here tonight to ask permission to discuss with you some of the very curious aberrations of thinking that have taken place in this country of late.

I have thought, I think I have thought without prejudice, to understand the point of view of the men who have been opposing the League of Nations. Many of them are men whose judgment of a patriotic feeling I have been accustomed to admire and respect. And yet I must admit to you, my fellow-countrymen, that it is very hard for me to believe that they have followed their line of thinking to its logical and necessary conclusion, because, when you reflect upon their position it is either that we ought to reject this treaty altogether or that we ought to change it in such a way as will make it necessary to reopen negotiations with Germany and recon-

sider the settlement of the peace in many essential particulars. We cannot do the latter alone, and other nations will not join us in doing it. The only alternative is to reject the peace and to do what some of our fellow-countrymen have been advising us to do—stand alone in the world.

I want to point out to you that only those who are ignorant of the world can believe that any nation, even so great a nation as the United States, can stand alone and play a single part in the history of mankind.

I suppose that most of you realize that it is going to be very difficult for the United States that were engaged in this war to get financially on their feet again. I dare say you read the other day the statement of Mr. Herbert Hoover's opinion, an opinion which I always greatly respect—that it will be necessary for the United States immediately to advance four or five billion dollars for the rehabilitation of Europe.

LEAGUE IS ABOVE PARTISANSHIP
Taft Says Covenant is a Fundamental and as Vital to World Progress as is the Constitution to America.

BY WILLIAM HOWARD TAFT.
If you believe that the objections to the League of Nations are real, if you believe they are fair, that the boon that the league offers does not justify the endangering of the nation and assuming that risk, then it is your duty to use your influence against the ratification of the league. But if you feel as I do that this is the greatest step forward to civilization, then you will use your influence with your Senators and notify them to support the league. What I urge upon you is to purge your minds and souls from unworthy considerations in reference to the league. Take it upon its merits. If because you do not like Mr. Wilson, or don't like his administration, or don't like the Democratic party—any more than I do—and think it may redound to the credit of that party and so oppose the league, then you are acting from unworthy motives, irrelevant to any such issue.

NO BRITISH CALL FOR TROOPS IN CAUCASUS.
LANSING DENIES AMERICA TO SEND SOLDIERS TO PROTECT ARMENIANS.

WASHINGTON, Sept. 5.—Secretary of State Lansing has characterized as untrue a published report that the British government had asked the United States to send a military force of 200,000 men to Armenia. The British government, Mr. Lansing asserts, has made no request of the United States of any kind whatever. The question of Armenia is a question of international law, and it is the duty of the United States to maintain its neutrality. The British government's request is a violation of the principle of non-interference in the internal affairs of other nations.

UNITE GREAT VALLEYS FOR CONSERVING WATER.
PEOPLE OF SAN JOAQUIN AND SACRAMENTO URGED TO CO-OPERATE.

TULARE, Sept. 5.—The San Joaquin Valley water conference opened a two-day session here today to consider means of conserving and distributing water throughout the valley. Practically all counties of the valley were represented and the State government was represented by members of its railroad and water commissions. A. C. Barlow of Bakersfield delivered an address in which he said the entire San Joaquin Valley from Tracy to Bakersfield was greatly in need of water and indicated an attempt would be made to unite the San Joaquin and Sacramento valleys in a single movement for the conservation and distribution of water on an equitable basis to all the interior of California.

ALASKA PLACER GOLD THIS YEAR \$6,225,000.
DAWSON (Y. T.) Sept. 5.—Placer gold shipments from Alaska and Yukon Territory camps this year probably will total approximately \$6,225,000, according to estimates made by Volney Richmond of Dawson, superintendent of the Northern Commercial Company. The gold production figure set by Mr. Richmond is lower than the 1918 total. Every year Richmond announces his figures just before the close of navigation. He makes his estimates from bank and express shipments.

CARUSO WAITS FOR CHRISTMAS STORK.
NEW YORK, Sept. 5.—Enrico Caruso has admitted to a host of welcoming friends that he is looking forward to the Christmas tide of 1919 as he has never looked forward to a Christmas in all his picturesque life.

"Why wouldn't I look forward to it," he said, "knowing that the most wonderful gift in the world is winging its way in my direction?" "Winging?" he was asked. "Winging is right," replied the greatest of all tenors. "Airplane or R-34?" "Stork," announced Caruso, sighing blissfully. "A broad-winged, long-legged, snapping stork. He's due here about Christmas. I only hope it's a boy."

LUIGI'S LOVE TALE IS TOLD IN DIVORCE SUIT.
SILVANO ROMANCE OF GAIL CURCI'S HUSBAND AND VILLAGER MAIDEN IS TOLD.

CHICAGO, Sept. 5.—The love of Luigi Curci and pretty Melissa Brown, who lived on the mountain overlooking the village of Fleischmann in New York State, are told in two legal depositions which were withdrawn from their secret abiding place in the records of the Cook county Superior Court. They are to be used in the coming legal battle when Mrs. Amelia Curci is alleged to have taken place in September, 1917, while the Curcis were vacationing among the New York hills. Partnering the alleged clandestine wooing of Melissa Brown is the adventure of Mary Rinaldi, her cousin, who, according to the charge, was the companion of Luigi's brother, Gino. These four went voyaging together through the night along lonely roads and what transpired during these excursions is set forth in the statements of Melissa as well as Mary.

"It was in the middle of September, when he met them," reads Mary's deposition. "Luigi and Gino were riding in Luigi's car. They asked us to go riding with them, but we said to wait until the next night and the next night we met them and went along the road to Kingston. Melissa was in front with Luigi and I sat in the back with Gino. We had been going for half an hour when the car stopped and we four sat in the machine and made love."

"After a while Gino and I got out and went for a little walk in the woods. We were gone for about half an hour. When we came back, we found Luigi and Melissa sitting with Luigi's head on her shoulder."

"We were in a lonely place on the road and stopped there talking and making love. Luigi put his arms around me and hugged me and kissed me. Then my cousin and Gino got out and went for a walk in the woods. Luigi asked me if I would mind getting in the back seat and I said I would not."

"Did he stay there with you?" "He did. He loved me some more and kissed me."

"The following night the same procedure was followed in detail, and again two nights later. Then came a night when the four, after talking their usual talk, along the road, wound up at the Curci home and remained there for more than an hour."

MINNEAPOLIS, [EXCLUSIVE DISPATCH.]
MINNEAPOLIS, Sept. 5.—The Minneapolis street railway company today formally accepted the new franchise as passed by the council. It will now go to the voters at a special election, December 5.

PEACE COUNCIL, REV. FATHERS
PARIS, Sept. 5.—The Peace Council today met for the first time since the conference opened, and the Rev. Fathers of the Peace Council were present.

PERU'S DEPOSED RULER IN AMERICA

[EXCLUSIVE DISPATCH.]

KANSAS CITY, [EXCLUSIVE DISPATCH.]
KANSAS CITY, Sept. 5.—One result of the visit of the President tomorrow has been a general tidying up and repaving of streets in the downtown district.

DETROIT, [EXCLUSIVE DISPATCH.]
DETROIT, Sept. 5.—Asst. Dist. Atty. Murphy will ask a Federal indictment against Louis Swift of the Swift Packing Company as the result of a raid today when Federal officers seized 30,000 pounds of poultry stored by Swift & Co. for two years.

PLEA OF WORKS TO FILE BRIEF DENIED.
MAY PETITION TO INTERVENE IN CHRISTIAN SCIENCE SUIT, SAYS COURT.

BOSTON, [EXCLUSIVE DISPATCH.]
BOSTON, Sept. 5.—Justice Loring in the Supreme Court today denied the request of former Senator John D. Works of California, made through Sherman L. Whipple of this city, for permission to file a brief in the Christian Science litigation, as a member of the Mother Church and in legal terms as a "friend of the court."

PORTLAND SECURING ARAB LUMBER TRADE.
PORTLAND (Or.) Sept. 5.—Portland exporters are getting part of the northern Arabian coast trade in lumber, which was held almost exclusively by Australia prior to the war. It was said here today, Douglas fir now is going into construction of railways, warehouses and other buildings that are springing up in the reconstruction work of that section.

PORTLAND BREAD HAS BRIEF ONE-CENT RISE.
PORTLAND (Or.) Sept. 5.—Two local bakers who yesterday raised the price of bread one cent today returned to the old price. The present price of eight cents wholesale and ten cents retail will remain "until such time as Mayor Baker gives authority for all bakers to increase the price," said E. F. Invidious, who yesterday, however, raised the price yesterday and reduced it today.

MUNICIPAL PROBLEM UP TO JUDGE TAFT.
TO FIGHT OR NOT TO FIGHT AN ANNEXATION IS THE QUESTION.

MIDDLE WEST NEWS IN BRIEF

[EXCLUSIVE DISPATCH.]

MILWAUKEE, Sept. 5.—Police are battling with a crime wave. Two sailors today were sentenced to seven years at Waupun for holding up a hotel clerk. Two nates were cracked last night.

ST. LOUIS, [EXCLUSIVE DISPATCH.]
ST. LOUIS, Sept. 5.—Alex H. Stephens, former assistant cashier of the Central National Bank of Booneville, Mo., who has been serving an eleven months' sentence in the Henry County Jail at Clinton, Mo., on a charge of unlawful certification of checks, was pardoned yesterday by President Wilson. Stephens is a brother of Lon V. Stephens, former Governor of Missouri.

A suit involving title to four parcels of real estate belonging to Albert O. Terry, wealthy real estate dealer who died several years ago, was filed here today by Mrs. Anna T. Caldwell of New York and George L. Terry of California, children of his first wife, who is now Mrs. Mary Isabelle O'Brien of California. The allegation is made that at the time Terry was married to his second wife, Mrs. S. C. Terry, in 1911, he was not divorced from his first wife.

DES MOINES, [EXCLUSIVE DISPATCH.]
DES MOINES, Sept. 5.—Col. Matt Tinley of Council Bluffs today elected commander of the Iowa American Legion. Cedar Rapids sets the next convention.

INDIANAPOLIS, [EXCLUSIVE DISPATCH.]
INDIANAPOLIS, Sept. 5.—H. E. Barnard, head of a number of divisions under the State Board of Health, has requested of the board a leave of absence of three months without pay, effective November 1.

OMAHA, [EXCLUSIVE DISPATCH.]
OMAHA, Sept. 5.—A \$300,000 family hotel is announced for Thirtieth and Farnam streets, to be built by Frederick Hays.

ST. PAUL, [EXCLUSIVE DISPATCH.]
ST. PAUL, Sept. 5.—A warrant charging manslaughter will be issued against Dr. H. O. Skinner, accused of culpable negligence, resulting in the auto accident in which Wendel and Miss Linnea Linnar were killed, August 19.

MINNEAPOLIS, [EXCLUSIVE DISPATCH.]
MINNEAPOLIS, Sept. 5.—The Minneapolis street railway company today formally accepted the new franchise as passed by the council. It will now go to the voters at a special election, December 5.

PEACE COUNCIL, REV. FATHERS
PARIS, Sept. 5.—The Peace Council today met for the first time since the conference opened, and the Rev. Fathers of the Peace Council were present.

PERU'S DEPOSED RULER IN AMERICA

[EXCLUSIVE DISPATCH.]

KANSAS CITY, [EXCLUSIVE DISPATCH.]
KANSAS CITY, Sept. 5.—One result of the visit of the President tomorrow has been a general tidying up and repaving of streets in the downtown district.

DETROIT, [EXCLUSIVE DISPATCH.]
DETROIT, Sept. 5.—Asst. Dist. Atty. Murphy will ask a Federal indictment against Louis Swift of the Swift Packing Company as the result of a raid today when Federal officers seized 30,000 pounds of poultry stored by Swift & Co. for two years.

PLEA OF WORKS TO FILE BRIEF DENIED.
MAY PETITION TO INTERVENE IN CHRISTIAN SCIENCE SUIT, SAYS COURT.

BOSTON, [EXCLUSIVE DISPATCH.]
BOSTON, Sept. 5.—Justice Loring in the Supreme Court today denied the request of former Senator John D. Works of California, made through Sherman L. Seals' Youngster Heaver Knocked Out of the Box; American Tennis Cracks Trim Anzac

TIGERS SPANK BOY WONDER

Lundberg, Seals' Lad, Lasts Only Two Innings.

Fineran, Easily Vanquishes San Francisco.

Hughie High Makes Great Catch in the Sixth.

BY ED O'MALLEY.

Encore—Version 7, San Francisco, and fair enough. Lordy me, how these old Tigers did loom up yesterday! If the St. Paul team had seen them in action, the Middle Westers would have undoubtedly thrown into a blue funk and immediately telegraphed Bill Kistler, "Take it." Baseball sure is a peculiar thing. To guess the number of men in and out of the clubhouse on a special delivery stamp plastered on him. Tradition has it that the good Homer came in a day of chaos, being unable to solve a riddle. Had his old knob been at Washington Park in the last week or so he would have died a million deaths in the guessing line.

Oh, yes, Charlie Graham had no chance with yesterday's game despite the fact that he played against only eight and three-fourths men. The mortal in the shortage line was no other than our own popular Babe Ruth. According to the statistics, Babe sizes up only about three-quarters of a man in the human body measurement.

Several weeks ago way up where the aurors borealis does a daily fox trot, Babe lost one of his vertebrae, and like the lost Virgil, that same veteran has never wandered back to its own friends.

INTO A KNOT.

Despairing of ever getting his whole self together again, Babe took put and rejoined his teammates. Now comes a problem, the attempt to solve which has twisted our thin pan into a sailor's knot. If a man hits 320 with his spinal column intact, what should he hit using that same backbone with one of its rooms vacant?

We imagined it would put Babe on a par with Art Fern, getting the stickling line, but Babe makes a sucker out of all the figures that Archimedes ever dreamed of by lambasting the horridly harder than ever. Being somewhat of an experimental philosopher ourselves, an idea has struck us, and we are being about an angelic victory for the pennant, so we wired Red Kistler at Salt Lake last night, "Have some gink knock a vertebrae out of Babe's back, please. We want out of Babe's back, please. We want out of Babe's back, please."

Well, there is nothing like trying all the time and surely Red has tried everything under the sun—in fact, he confided in us nothing and that he would try anything once. From now on Babe Ruth will be known to the rank and file of Tiger rosters as the "Spinalized" batter.

And now for a few volts of electric light on another wonder known as Lundberg, only this time the nine days' trial. The only wonderful thing about this lad's pitching was that he lasted two long innings before the bunch of Vernon's little drivers. He started out something like this: Mitchell went cut to Koenner unassisted. Chadbourne then knocked one past Kamm that had that young man attempted to stop it would have knocked his top knot off. Menzel was safe at first base. Both runners advanced a base when McKee in a fit of circular insanity lost track of the ball and finally found it in his hand.

Bill Easick then looked up Babe Borton's spine and Babe patted the boy wonder for a triple to left that knocked all the figures out of the score board and stomped all the wild animals in the menagerie on the other side of the fence. Chadbourne and Menzel scored. Edgington took pity on Lundberg and showed an easy one to Corhan, was down between bases. High went out by the boy wonder to Koenner.

In the second inning Lundberg became very much Gen. Von Hindenburg and blew the works. Bobby Fisher opened with a long fly to Hunter. Brooks was named by a pitched ball, and Joe Fineran, responding to a feminine solicitation of "Oh, you Joe!" sowed the old apple to right for a double. The moment later Johnny Mitchell dived, tallying—Brooks. Chadbourne pepped to Corhan and then Menzel broke through the Von Hindenburg line with a delay cutter to left, scoring Joe. Borton patted a lone one to Schick and Lundberg signalled for an explosion.

WHEAT OVER.

Joe Fineran heaved for the Tigers. The best way to describe him as he splashed them over the plate is to use the words of one of the "Babe" players: "He simply tossed 'em straight over the plate and how he got away with it for nine innings I can't for the life of me tell." But Joe got away with it and was never in trouble. It was just a big May Day frolic for him and as it is only results that count, he try to attribute to luck what was accomplished by cunning and cleverness. And then there was Hughie High from Kerry Patch just back of Butchertown. We used to carry a brief for Rube Ellis but after Hughie's uncanny catch of Menzel's prospective home run in the beginning of the sixth to center field we tore up that same brief. The hit was Chadbourne's, Hughie, aged by William Lloyd's daily of "Oh, you Butchertown," wobbled after the pill.

FALLS IN HEAVEN.

How he got to it the Lord can only tell, but by some strange prank of fate the pill caressed his outstretched fingers and over his toppled in a heap. Even in that circular tumble, Hughie held his hands high up and sure enough there nestled the disappointed onion. It was one of those catches that are not of the earth earthy and have to be glimpsed to be appreciated. The Seals scored their only run in the—but wait a minute—who is the thunder is interested in that lone Fisherman tally which was simply a sop from Joe Fineran appears the wrath of Charlie Graham at witnessing the shattering.

SCOTT TO PITCH AGAIN FOR SEALS.

Jim Scott, who trimmed the Tigers effectually several days ago, will be on the mound again today for the Seals and will try to repeat.

Against him will be pitted Rex Dawson, who set the American Association afire last year. Dawson is Vernon's ace of aces—a great pitcher's battle can reasonably be looked forward to.

The game will begin at 2:45 sharp at Washington Park.

BY ED O'MALLEY.

Encore—Version 7, San Francisco, and fair enough. Lordy me, how these old Tigers did loom up yesterday! If the St. Paul team had seen them in action, the Middle Westers would have undoubtedly thrown into a blue funk and immediately telegraphed Bill Kistler, "Take it." Baseball sure is a peculiar thing. ANZACS BEATEN BY AMERICANS.

Johnston and Tilden Too Fast for Australians.

Brookes and Patterson Taste First Defeat.

Matches Bring Out Brilliant Tennis Play.

BY FRED HAWTHORNE.

FORREST HILLS (L. I.) Sept. 5.—The United States made a clean sweep of the courts this afternoon on the first day of the great international lawn tennis team match with Australia, with Norman Brookes and Gerald L. Patterson, national and world's champions, tasting their first defeat at the hands of William M. Johnston of California, national singles champion, and William T. Tilden, II, of Philadelphia.

The matches brought out some really brilliant tennis, particularly in the doubles match, which went to Johnston and Tilden by a score of 6-4, 3-6, 6-4, 6-3.

In the two singles matches, Wallace Johnson of Philadelphia defeated Randolph Lycett of Australia by a score of 6-4, 6-3, 6-4, and Richard Norris Williams, II, of Boston, vanquished Ronald Y. Thomas of Australia at 6-3, 6-4, 6-1.

WICKED BREAK.

Johnston began the service in the match and won the opening game with a wicked break in the most wicked break in it that had troubled Tilden yesterday and both Brookes and Patterson made weak returns. They then sent up weak "loosers" and first Tilden and then Johnston scored spectacular "kills," the ball bounding over the back stop and into the stands.

The Australians took the second game with Patterson serving and Tilden and Brookes both making the game score 3-1. Johnston won the fourth game serving and Tilden and Brookes both making the game score 3-1. Johnston won the fourth game serving and Tilden and Brookes both making the game score 3-1.

TOOK SEVENTH. Tilden took the seventh game by the aid of his tremendous serve which had come to life in a most encouraging manner. With the score reading 5-2 against them, Brookes and his partner, having been superbly and won the eighth and ninth games, the first by breaking through Johnston's service. It was really the great playing of Johnston that carried the Australians to within striking distance of the lead, for the veteran was bringing off the most amazing shots, now a full volley that flashed through a minute opening in the opposite court, then a dazzling half volley, taken as he came in from the base line with tigerish stride.

But the Americans took the first set when Tilden won the tenth game on his "canonball" service, the world's champions being unable to handle the ball effectively. Patterson appeared to grow weaker in several departments, his back hand very bad and his low volleying ragged. The point score in this set was:

Johnston and Tilden, 4-2 3-4 4-2 4-2 3-4

The first set had shown neither Brooks nor Patterson were at their best. The Australians have been idle for several days and this combined with the fact that they were playing in the Neal tourney had its effect in slowing up their game and bringing out the error.

Johnston was a little more effective than Tilden, being steadier as a rule and his strokes were raising havoc with the Australians.

"SEA SLED" MYTH TO HAVE NEW ENGINE.

Although beaten by the Mystery IV, fast speed boat owned by Frank Garbutt, at the races held at Balboa on Labor Day, Capt. C. K. Sherman, owner of the sea sled "Myth" states that the Mystery has won her last race.

Capt. Sherman will at once install a new 100-horse-power Sterling motor in the sea sled in place of the 65-horse-power motor that the fact little boat is now equipped with and will be prepared to "bring home the bacon" when the next race, scheduled to take place at San Pedro about the middle of September, takes place. The "sea sled" was beaten by only a few seconds in all of its racing with the Mystery and Capt. Sherman feels confident that with the great surplus of power that the new motor will afford him it will be an easy matter to win the next race from the Mystery.

IN THE BIG LEAGUES.

TIMELY HITTING BY SMITH WINS.

CHICAGO INCREASES CINCH ON PENNANT.

CHICAGO ANNEXES HARD-FOUGHT GAME.

BY A. P. NIGHT WIRE.

BOSTON, Sept. 5.—The Braves defeated Philadelphia, 4 to 2, today, largely through timely hitting by Smith and Mann and Cheney's wildness. The Philadelphia pitcher hit Gowdy in the head with a pitched ball in the fourth inning, forcing the Boston player's retirement. The score:

PHILADELPHIA	AB	R	H	E	PA	W	L	P	W	L	P
Gowdy	4	0	0	0	0	0	0	0	0	0	0
Smith	4	1	1	0	0	0	0	0	0	0	0
Mann	4	1	1	0	0	0	0	0	0	0	0
Cheney	4	1	1	0	0	0	0	0	0	0	0
Philadelphia	16	2	4	1	0	0	0	0	0	0	0
Boston	16	4	2	0	0	0	0	0	0	0	0

HARD STUFF.

An article in a magazine says the
trouble is that a man doesn't want things
hard enough. That doesn't apply to cider.
Since July 1 he wants that as hard as he
can get it.

HENRY TO THE RESCUE.

Henry Ford is going to establish a
plant for the manufacture of his tractors
in Mexico. That will be as good as a re-
giment of soldiers in settling up and settling
down the country. If the bandits find they
can make five dollars a day some of them
will be willing to work.

OVERTIME.

It's a wonder that President Wilson
didn't strike for an eight-hour day at least.
That day and a half for overtime.
Here he is putting in twelve and fifteen
hours a day and not a dollar more in his
pay envelope. Not only that, but the in-
come tax man comes along and takes away
about 35 per cent of it. No union man
would stand for all this.

NAVY FOR SALE.

Uncle Sam is going to auction off a
navy. Over 100 ships are offered for sale
at one swoop. The list includes seven or
eight gunboats, a couple of monitors and
examples of several other types, including
a fleet of minelayers and submarine chas-
ers. Any country needing a slightly-worn
but respectable navy might find an advan-
tage in conferring with Josephus Daniels.
This might be a good time for Switzerland
to get into the game.

PRAYER CENSORS.

Congressman Heflin accused the Speaker
of the House of censoring the prayers
of the blind chaplain of that body. The ven-
erable clergyman had been petitioning the
body to beam graciously upon the League
of Nations and give it form and substance.
Maybe the league needs praying for when
some of the plebeian statesmen get to knock-
ing it. At any rate, the sightless chaplain
is his daily plea for guidance and support
did not neglect the league and on more
than one occasion mentioned it specifically
by name. Finally Speaker Gillett inter-
fered and diplomatically suggested to the
chaplain that he was expected to keep the
Almighty out of controversial subjects. The
League of Nations was a matter upon which
the Congressmen and Senators had found
occasion to differ and therefore should not
be directly referred to in the petitions to
the throne of grace. Some of the states-
men might stand for the chaplain praying
for the President, but not for the League
of Nations. So it would seem that if the
great covenant is to go through it will have
to be without the formal petitions of the
official chaplains of Congress. But there
can be a censoring of the unvoiced prayers
of the people and they will find an uninter-
rupted way to the throne of grace. That
should overcome anything that Senator Borah
or Senator Johnson can say before they
go to bed.

A STUPID FEAT.

Mayor Snyder properly rebukes the
weak-kneed members of the Council Pri-
vilege Committee who permitted them-
selves to be bludgeoned by a packed lobby
of radicals and union-labor agitators into
signing a resolution to the effect that "it
would insure to the public good for the city
to own, control and operate the street rail-
ways within its city limits." That resolution
has politics and not good business or
good sense for its sire. The men who
signed it have cheapened themselves in the
estimation of all right-thinking men and
women; and they have done nothing in the
way of giving real support to a movement
for municipalization of the street railways.
By their position on the Council Finance
Committee one might be led to suppose
that they knew something about finance.
But they do not seem to be aware that Los
Angeles is now the most heavily bonded
city for its population in the United States;
and that there is not a street railway in
the country making money on a five-cent
fare.

About half the street railways of the
United States are now in the hands of re-
ceivers. There is not, and never has been,
any big profit in electric street railroading.
If the city were now running the street
railway lines the taxpayers would have to
pay the same fares for a ride now in
effect and, in addition, make up in taxes
a deficit of at least \$3,000,000 annually. For
the municipality to pay \$40,000,000 for a
street railway system that it would be cer-
tain to operate at a loss would be a piece
of municipal folly. The Times is dis-
appointed that men of the standing of Flem-
ing and Conaway should lend their names
to so stupid a resolution. It is not surpris-
ing that the City Council yesterday stalled
the thing by proposing to investigate it.

Remember Tom Johnson and his three-
cent fares for the street railways of Cleve-
land? It was great railway play; but the
latest rate, fixed by a city commission for
these railways, is a seven-cent fare. That
is what Los Angeles would get under mu-
nicipal ownership, even if the city were
able to float a \$40,000,000 bond issue to
take over the roads. And how about the
street?

CAN'T TIE UP AND STARVE THE COUNTRY.

The recent railroad strike has been a
pointed object lesson, not only to Los An-
geles, but to the whole world.

It has demonstrated that it is impossible
to paralyze the industries of this country
by a general strike. The radical union lead-
ers have waited too long to carry out their
off-repeated threat to starve the nation into
submission. If it ever could be done, it
can't be done now.

This red terror has been quenched in
gasoline.

Turning from idle threats and growls to
matters of practical possibility, it is at once
evident that the G string of a general strike
is the paralysis of the railroads. The only
way to bring the threat of starvation home
to the people of this country is to interrupt
communication between the centers of popu-
lation and their food supplies.

You can't starve Nebraska, but you might
starve New York. You can freeze up Nebr-
aska and starve New York if you can shut
the former off from the coal fields and the
big city from the farms.

There was a day when a sufficiently sav-
age conspiracy might have brought about this
result. But it is too late. The reds
waited too long. They waited until gaso-
line-driven vehicles overtook them. The
fire has passed from the threat forever.
Yes, they may be able to do some harm—
but not to bring about a catastrophe.

It will never again be possible to isolate
any large American city for the simple rea-
son that almost any community can feed
itself and maintain communication with the
outside world by means of auto trucks. This
was well demonstrated by the experience
of Los Angeles during the strike.

It is true that this city presents a special
instance. The unions, in selecting this city
to starve, made an unfortunate choice—for
them.

With our own water power, our own
electric power, plenty of fuel oil and gas
at our very doors, with our own cotton and
an unlimited supply of food almost within
the city limits, this city stands in a peculiar
position. No doubt, had the unions suc-
ceeded in maintaining a siege, it would
have been, in the end, a good thing for the
town. We would have emerged from the
lock-out a richer, fatter, better-developed
city than ever before. They might as well
have sentenced a rabbit to starve in a
turnip patch as to attempt to starve Los
Angeles by stopping railroad traffic.

But let us consider the case of cities less
fortunate. The complete stoppage
of communication with the outside
world would reduce most large cities to
the verge of starvation in a few hours. It
is upon this knowledge that the union lead-
ers have based their threats.

But the facts, as developed in the Los
Angeles strike, show that interrupted rail-
road traffic is replaced by auto traffic al-
most equal to handling all food problems.
One day a city is clinging to a railroad
line for sustenance; the next day it is be-
ing fed by auto truck lines.

This fact sounds the knell of the general
strike. For railroad control is the key-
stone of the arch of the general strike.

They might as well attempt to control
the March wind as the autos which stand
ready to replace the railroads; there are
too many of them and there is too much
gasoline.

In the opinion of many important traffic
men it is a question if the use of the auto
truck in this and other emergencies has
not written the eventual decline of the rail-
road train.

It is a question if the union leaders have
not unwittingly shown us that we have out-
grown the railroads. This will become more
manifest as the country grows more thickly
populated.

The greater elasticity, the lighter cost,
the greater independence of the freight
shipper are strong reasons for believing
that a large share of the freight shipping
of the future will be done over good roads
in motor trucks rather than by railroad
trains.

This is not to suggest that the day of
doom for steam railroads is at hand. No
doubt there always will be railroads. But
the day is not far distant when railroads
will not be the main means of transporta-
tion for freight.

Military necessity will naturally bring
about a boom in road-building. Within a
very few years the country will be a net-
work of boulevards. And with these roads
will inevitably come great lines of trans-
continental autos carrying both passengers
and freight.

Whether as hot rivets or in friendly co-
operation, these two systems—the railroads
and the auto lines—will develop together.
Whenever a strike conspiracy results in the
paralysis of one system the other system
will immediately take up the slack and
carry the double load.

It is an automatic readjustment. When-
ever the unions threaten the railroads, by
just so much do they hasten the supremacy
of the auto truck.

The weird dream of cities filled with
haggard, starving women and children,
down on their knees, imploring mercy of
the red union bosses, with the keys of the
railroads in their hands, will never come
true. It has dissolved in gasoline vapor.

As long as there are gas and automobiles
the country need not worry about being
tied up and starved in a general strike.

It is easy to stop a railroad train because
it runs on two rails; but the potential rails
upon which auto trucks run are countless.

Thank God, the power is gone from the
railroad brotherhood!

Thank God it is not possible for one
class of unscrupulous men to starve and
distress all other classes and rule over them
like a Nero!

AN OUTRAGE ON SERVICE MEN.

California's government has been buf-
feted about by a high wind of State social-
ism for the last ten years and some of the
wreckage is beginning to appear in unex-
pected places. There is now pending in
the Superior Court of San Diego county a
hearing on a temporary injunction restrain-
ing the District Attorney of that county
from prosecuting criminally a number of
service men whose only crime consists in
taking up several sections of government
land, forming a corporation and attempting
to develop oil thereon. They have stated
in a joint affidavit that they were "follow-
ing the general advice of the administra-
tion for service and ex-service men of the
military department of the United States."

That they acted in good faith is beyond
question; but in attempting to sell enough
of their securities to cover the expense of
sinking the test wells necessary for oil
development they ran counter to the State
Blue Sky Commission. They have been for-
bidden the right to sell any of the stock of
their company; and the District Attorney
of San Diego county has been directed by
the Blue Sky Commission to begin crim-
inal action against the trustee in charge
of the pool, against the company, and
against the advertisements offering the stock
for sale and against such members of the
company as sought individually to market
the stock.

Two hundred and fifty service men of the
United States military force stationed at
San Diego sought to take advantage of the
offer of the government to locate them on
the national domain by pooling their small
savings and locating on 8000 acres in San
Diego and Imperial counties. According to
the affidavit filed with their application for
a temporary restraining order they "com-
bined their small savings and employed ex-
perienced experts to carefully examine said
lands as to favorable conditions for min-
eral oil and to preliminarily test the same
and report thereon. The said examination
and testing were made and a report made
thereon in which it was stated that the
geological indications and evidences were
unusually favorable for large and profit-
able deposits of mineral oil and that appar-
ently it would be developed into one of the
best producing oil fields in the United States."

Acting on this favorable report, they or-
ganized a corporation under the laws of
Arizona, being warned that the corpora-
tion laws of California were so drawn as to
discourage the formation of companies for
the development of the natural resources
of the State. Following the advice of their
attorneys they formed a pool of one mil-
lion shares of the stock, par value \$1 a
share, and offered it for sale for the purpose
of securing the necessary funds for the de-
velopment of the land. They proposed to
market this development stock at ten cents
a share. The M. Trust Company of San
Diego was made trustee of their pool. But
as soon as the first stock was offered for
sale they brought down on their heads the
wrath of the Blue Sky Commission. Having
no thought of violating the State laws
they promptly filed an application for the
necessary permit to market their securi-
ties. They were told the filing fee
would be \$45, which they paid at the Los
Angeles office. Next they received a com-
munication from the commissioner's office
in Sacramento telling them that the fee
would be \$175 instead of \$45. They as-
sessed themselves for the difference and it
was promptly paid. On August 4 they re-
ceived another communication from the
Corporation Commissioner to the effect that
the filing fee would be \$325 and that "it
will be necessary to forward the remainder
of \$150." This done, they thought their
troubles with the red tape of the State com-
mission were ended.

Then came the crusher. They learned
that the State Corporation Commissioner,
"under order or decision of date about July
28," seven days before they were asked
for that last \$150, had instructed the Dis-
trict Attorney of San Diego county to "crim-
inally prosecute under the State Corpora-
tion Act," the newspapers that had ad-
vertised the stock and the persons who had
offered it for sale.

They are classed as common criminals;
these honorable service men of the army
and navy who sought to develop oil on
the government land where they had been lo-
cated! While the suit was to be techni-
cally directed at the trustee of the pool, they
all confessed themselves equally at fault;
and they have secured a temporary injunc-
tion from Judge T. L. Lewis of the Super-
ior Court of San Diego county restraining
the District Attorney from instituting the
criminal prosecutions ordered by the Blue
Sky Commission. They set forth in their
complaint that the State Corporation Act,
known as the blue-sky law, is a violation
of the State Constitution in that it confers
executive, legislative and judicial powers
upon the same officer.

The blue-sky law is based on a socialistic
amendment to the State Constitution which
was adopted in the whirl of "Progressive"
legislation of the first Johnson regime.

Perhaps there may arise in the Califor-
nia courts a second "Daniel come to judg-
ment" who shall be able to establish the
unconstitutionality of the whole fabric of
such socialistic legislation; but it is only
a forlorn hope. However thoroughly con-
vinced a judge may be of the injustice of a
constitutional act, it still remains a part
of the Constitution. The people make a
constitution and the people amend it—at
least in theory. In fact, a group of dema-
gogues and political parasites gathered at
Sacramento passed that Blue Sky Act and
when it was submitted to the people for
ratification they gave the assurance that it
was a needed reform to prevent wild-cat
speculation. Those who protested against
its manifest unfairness were denounced as
"corporation hirelings" and reactionaries,
and the act was ratified under a fervor of
reform.

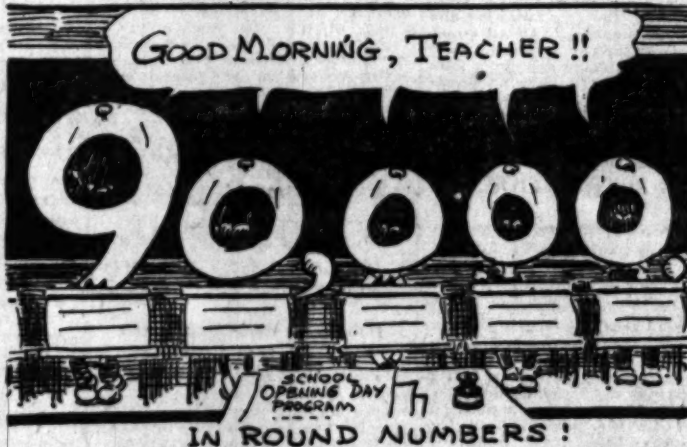

State Corporation Commissioner Bellows
will doubtless hold that the marketing of
the stock of the corporation formed by
these service men would tend to encourage
wild-cat speculation. But every person or
corporation who attempts to develop the
natural resources of any community is tak-
ing a chance. Those service men showed
their good will by investing their own sav-
ings—not enough to secure the machinery
and sink a well. So they offered to sell a
part of the stock for one-tenth its par value
to secure the necessary development mon-

AROUND TOWN.—By GALE

THIS WILL MAKE THREE PRESIDENTS MR. SNYDER HAS GREETED
IN THE OFFICIAL CAPACITY OF MAYOR OF LOS ANGELES.
(ISN'T THAT PRETTY NEAR A WORLD RECORD?)

IN ROUND NUMBERS!

GO GIT 'EM!

Everyone who bought would know he
was changing it; but he stood to win from
ten to fifty times his original investment if
the prediction of the oil experts should be
verified.

Forbidding the marketing of the stock
of such a corporation is depriving honest
poverty of an opportunity to better its con-
dition. If the men had been millionaires
they would have put up the necessary cash
and would have been in high favor with
the State Corporation Commission. But
they were just ordinary service men, with
nothing back of them but an honorable
record and the savings they had been able
to make from a hundred petty economies
in the government service. The State Cor-
poration Commission has grabbed a goodly
part of that in fees; and in return has or-
dered criminal prosecutions. No one, how-
ever patriotic, can view such an outrage on
justice without losing respect for existing
laws.

GOOD FOR A RAINY DAY.
It is announced that treasury savings
certificates in denominations of \$100 will
soon be obtainable.

It should be announced that never were
reasons for investing in them more urgent
than they are now.

Every sale will help to substitute a sense
of security for the "spirit of unrest." It
cannot do otherwise.

Besides, they are handy things to have
around. They are as serviceable as um-
brellas on a rainy day.—(Brooklyn Eagle)

ANY FOOL CAN DO IT.

BY ALMA WHITTAKER.

Any silly fool can spend.
But it takes strength of character,
self-control, brains to save.
Any fool can get credit and run
up bills.

But it takes forethought, honesty,
stability and money to pay 'em.
Easy credit generally means hard
payment.

Most any silly fool can start a
business or get a job. But it takes
hard work, patience, infinite capac-
ity to make a success of it. In-
fluence, good looks, pity or hot air will
often gain jobs. But they won't
keep them.

Any fool can quarrel with his re-
lations, his in-laws, his business as-
sociates or his lot in life. But it takes
tact, sympathetic understanding
and quite a lot of decent qual-
ities to maintain happy diplomatic
relations.

Any fool can make acquaintances.
But it takes a friend to make and
keep a friend.

Any fool can gain notoriety, but
it takes distinction to acquire fame.
Any silly fool can lie, but it takes
courage to tell the truth.

Any silly fool can insult his bet-
ters. Genuine independence of char-
acter can always afford to be civil.

Any silly fool can obstinately up-
hold his mistakes. Only the broad-
gauge mind can change its mind and ac-
knowledge their errors.

Any fool can be abusive. But it
takes brains for reasoning argu-
ment.

Any silly fool can cheat. But it
takes intelligence to play the game.

Any silly fool can get married.
But it takes a wise head and a large
heart to make a success of it.

Any silly fool can admire a beau-
tiful flower. But it takes love and
attention to make the thing thrive
and grow.

Any silly fool can mortgage his
property. But it takes considerable
capacity to raise it.

Any silly fool can spend all he
earns. But it takes a little good
management to spend less.

Any silly fool can be late. But it
takes a little forethought and con-
sideration to be on time.

Any silly fool can get indigestion.
But it takes good judgment to main-
tain a healthy stomach.

Any silly fool can attract atten-
tion. But it takes beauty or talent
to deserve it.

Any silly fool can brag about his
style and friends. But it takes rather
more to have them brag about him.

Any silly fool can lose a friend.
It sometimes costs a little self-sac-
rifice to keep one.

Any silly fool can break the eggs.
But it takes knowledge to make the
cake.

Any silly fool can stir up trouble.
But it takes genius to make peace.

MEXICO OUR BABY.

It is a pretty sane and safe guess
that the first draft which the League
of Nations will draw against any
account will be drawn against the
American and that it will arise out
of Mexican conditions. We know it
and our government does not want to
honor the draft.

Diplomats may try to hand us
mandates in Armenia and Turkey
and other places in which we have
no business, but nature handed us
a mandate in Mexico and necessity
will see that we exercise it.

We may ignore the claims of
Americans who have rights to prop-
erty and life in Mexico, but we shall
not be able to ignore the claims of
French and British who have rights
to property and life there.

The French and British have had
enough property destroyed without
submitting to further destruction.
They need their capital and they
need the returns from it. The
French, British and Americans are
the League of Nations as at present
constituted and America is responsible
for Mexico.

We shall not escape our dilemma
by trying to talk it to death. It will
survive everything but action on our
part. We are sending a battleship
to take part in the pacification of
Fiume. The farther the field lies
from home the more realistic our
procedure becomes.

When the need is at home, when
it is where we could do something,
and do good to all concerned by do-
ing something, we content ourselves
with pastoral visits and affect not
to see the faces made at us after we
have distributed our tracts.—(Chi-
cago Tribune)

FLASH BACKS.

The moving-picture business is
getting to be a great thing. They
can show you a picture of something
that never happened as easily as of
something that never will.

"Plot pirates have overlooked a
rare opportunity in not turning to
the Bible," says Lem Parton. "I'm
thinking of beating them to it with
a scenario based on Eugene's and
Selodius."

Marriage is like the movies in
just one thing: the people that are
in stay in because it is so much
trouble to get out, and the people
who are out fall to see the trouble
in their anxiety to get in.

No wonder stout people have lost
faith in the efficacy of exercise as a
means of reducing weight. Who
gets more bumps than the "fat
folks" of the movies, we'd like to
know, or practices deeper breathing,
swifter footwork and the like and
packs off to a picnic to lose an
ounce?—(September Film Fun)

Couldn't Recall Archibald.
Mr. and Mrs. Oldred had so
many children they didn't know
what to do, so they took the whole
pack off to a picnic to lose an
ounce, and let them run riot.

Suddenly a small boy ran up to
Mr. Oldred and cried out:
"Papa, papa! Archibald has
fallen into the water!"
"Archibald, Archibald!" repeated
the father. Then he turned to his
wife. "Allice," he inquired, anx-
iously, "have we an Archibald?"

[LOCAL CORRESPONDENCE.]

ONTARIO, Sept. 5.—Willard D. Ball, Jr., son of Mayor Willard D. Ball, returned today to his home in Ontario after more than two years' army service overseas.

The young man was one of the first from Ontario to enlist. He volunteered shortly after the war began and was later barred him at first, but he was later admitted to the hospital corps.

Most of his time was spent in France and England and the government gave him a three months' course in the London School of Economics.

Ball expects to return to Pomona College, Claremont, in the near future to complete his college course.

Cool, ocean-front rooms may be had at "Hotel del Coronado." [Advertisement.]

POOL RAISES PRICE.

Beans Growers Profit by Get-together Movement.

[LOCAL CORRESPONDENCE.]

VENTURA, Sept. 5.—Payments of rent and a basis on common limes and beans for the coming year will be made by the bean pool association within the next ten days and the affairs of the organization will be closed and the offices vacated by September 15, according to a statement made today by H. E. Esling, formerly farm adviser for the county, who had accepted the management of the pool when it was formed several months ago.

"This will make a total payment of 7 cents for limes and 4 cents for beans," Esling says, "and the members of the pool which was formed between the independents and the association when the bean market was at its lowest. The pool proved an immense success. Insurance recently will be made to all growers at this time.

Eight carloads of limes have recently been sold by the pooling organization at a price of 11½ cents.

September is fine at "Coronado." [Advertisement.]

MATTESON HEARING ENDS.

(Continued from First Page.)

The loan of city property to improve the school grounds.

Mr. Matteson sought to camouflage his own insubordinate acts by declaring that they were done out of patriotic motives while soldiers were being instructed at the school, because the Board of Education delayed months in supplying necessary materials.

Mr. Matteson's witnesses included Mrs. Sarah J. Grant and Miss Elsie Whitman, teachers in the art department at Jefferson school; J. W. Barnhardt, who taught with Mr. Matteson at the school for soldiers; Ben Huber, who was a soldier student at that school; Roy Reams, a graduate last year at Jefferson High school; J. Segal, an oxygen apparatus salesman; William Powell, a student at the school, and W. A. Yowell, his father; George W. McMill and Mrs. Proctor, who were students under Mr. Matteson when he taught at the Polytechnic Evening High School.

EXCITING DAY.

The day was filled with excitement. The elevator in the secur-

ity Building fell so suddenly as it was on its way to the seventh floor with witnesses for the hearing that Mrs. A. G. Matteson, wife of the teacher whose case was heard, fainted and had to be taken home in an automobile. Principal Vierling Kersey of the Polytechnic Evening High School in his testimony made a harmless remark to the effect that in talking with men or women concerning matters of school discipline, nonattendance, etc., he always had a witness, whereupon Rev. G. A. Briggles, pastor of Westlake Presbyterian Church, Editor Francis Drake of the Citizen, and a number of Mr. Matteson's women witnesses declared that Mr. Kersey's remark was an insult to the women of Los Angeles. Attorney Fred Spring desired to make a speech at the close of the hearing on Mr. Matteson's case, but was ruled out of order by Chairman Dorrier. Principal Fulton, replying to Mr. Matteson's veiled charge that the principal had ordered the school mechanics to work on his automobile, said that it was beneath his dignity to say that Mr. Matteson lied, but he would remark that Mr. Matteson had not told the truth.

TOO MUCH FOR
TWENTY PAGES.

Enlarged Number of "Farm
and Tractor" will be
Out Tomorrow.

Twenty pages wasn't enough for the splendid collection of features, and, incidentally, great volume of advertising assembled for The Times Farm and Tractor issue of September 7, and, consequently, the department to come out with tomorrow's big Sunday Times will be four pages larger than usual. No one can afford to miss this great twenty-four-page number.

But few persons outside of the San Fernando Valley itself realize the tremendous strides that have been made in this farming suburb of Los Angeles in the growing of delicious fruits. Therefore, a special article on the canner situation in the valley will be a revelation to many. The winter crop for citrus orchards is discussed by Robert W. Hodgson, whose interesting and informing articles are regularly looked forward to by thousands of Farm and Tractor readers. Mr. Hodgson also has an article on the methods of combating the pests that are destroying the live oaks of California and threatening one of the most beautiful assets of the State. Home gardeners will welcome a timely contribution by one who knows on the September garden. Arthur L. Dahl has an interesting article on orchard irrigation and another on the harvesting of hay.

All farmers and many city people will want to know the latest about the preparations for the coming tractor and live stock show, and it is all set forth in the Farm and Tractor section. In addition, there are the usual number of tractor, live stock and poultry features, together with Ernest Brautson's ever-interesting and instructive "Garden Beautiful" page.

This extra-size number is one of the best yet. Don't miss it.

AUTO-THEFT SUSPECTS
HAVE A TOUGH TIME.

STRAND ON DESERT AND NEARLY
DIE OF THIRST BEFORE
THEY'RE ARRESTED.

After they are alleged to have stolen \$150 from the Central Hotel, 1414 South Spring street last Sunday night, engaged an automobile from Richard Parsons of 116 West Ninth street, and attempted to run it into Mexico, Adam Bombar and Frank Gilroy were last night returned to this city from Brawley by Detective Harry Hickok of the theft bureau of the Automobile Club of Southern California and lodged in the City Jail, charged with grand larceny on two counts and with carrying concealed weapons.

Few alleged auto thieves have had the hard experience which befell the pair, their troubles consisting of being stranded on the desert while en route to Yuma, nearly dying from thirst when the water feed on the machine broke, spending three nights in the sagebrush and finally being placed under arrest when they appeared at Brawley, where Constable Conover recognized them from circulars sent from this city. According to the men's story, Hickok they were unconscious from thirst when a passing machine picked them up and brought them to Brawley. They arrested both men were carrying revolvers. According to the police both men confessed to the charges. Bombar was formerly a clerk at the Central Hotel, while Gilroy gave his occupation as a waiter.

NAME BOARD TO QUIZ
BAR APPLICANTS.

APPOINTMENT ALL FROM NORTH;
ANNOUNCE RULES FOR CON-
DUCT OF EXAMINATIONS.

Under authority of an act of the Legislature, providing for the creation and maintenance of a State bar examination board, the State Supreme Court yesterday announced the appointment of the following initial body:

Ex-Justice Marcus C. Stone, and Charles A. Shurtliff, of San Francisco, and Warren Gregory, of Berkeley.

In explaining the absence of any Los Angeles attorney on the above list Chief Justice Angellotti makes the statement that it is desirable in the beginning of the work out for the board of examiners to have the members of the body from the same city or in contiguous territory, on account of the necessity for frequent conference, etc., etc.

The rules for the conduct of the examinations of applicants for admission to the bar, follow closely the regulations in vogue when such examinations were held by the various district courts of appeal, with the added rule that the certificate to be given successful applicants, only covers the mental fitness of the applicant, with the court to pass upon other concomitants to such admission, such as moral status, etc. The board is authorized to incur any expense necessary in the conduct of the examinations, and the application of those seeking admission must be signed by two reputable attorneys, setting out the good moral character of such applicant, together with a statement of what studies he has been pursued by such applicant in seeking to prepare himself for the quiz. If an applicant is denied admission he will not be eligible for reapplication for six months.

SEEK HELP FOR
DRUG ADDICTS.

Federal Officers, Physicians
and Pharmacists Meet.

Plan Law to Provide Relief
for Innocent Sufferers.

Declare Unfortunates Must
Have Opium or Cure.

A plan to devise remedial legislation for drug addicts whose physical condition requires opiates to sustain life, and who are being denied these remedies through recent rulings of the courts, was launched last night by Internal Revenue Collector Carter and six representative physicians and members of the State Board of Pharmacy, who met in the offices of Dr. John V. Barrow, 323 Los Angeles Investment Building.

Some further meetings of physicians and State and Federal government officials are to be held behind closed doors but, Mr. Carter stated last night, as soon as definite plans have been formulated they will be made known, for the cooperation of the public is much desired in meeting the present situation.

As explained by Dr. Barrow, last night's meeting was called to assure State and Federal officials that Los Angeles physicians are anxious to assist in combating difficulties that have arisen from recent rulings of the courts concerning the Harrison Anti-narcotic Act.

LAW NOT AIR-TIGHT.

"The Harrison Act," said Dr. Barrow, "has failed to close up the little loopholes which professional drug peddlers and unreliable physicians have used in reaping fortunes through sales of drugs to addicts."

"There has been too much peddling of drugs and the courts, in attempting to prevent the illegal trade, have made conditions so stringent that not even a physician or pharmacist can now prescribe drugs for such serious ailments as cancer, for instance, without running a great risk of conflicting with the Federal law. Under the first anti-narcotic law it was possible to administer drugs to innocent addicts, but the Supreme Court has since decided that no one can get these narcotics legally."

"The Harrison anti-narcotic law now does not provide for the treatment of those who have contracted the habit through the use of opium. It would mean that before morning scores of pharmacists would be broken in and thousands of dollars worth of drugs stolen, for a drug addict will take hazardous chances to obtain the opiate he desires."

CURE NECESSARY.

"Before the government takes from the drug addict every ounce of drugs, an alternative must be offered. The government must provide institutions where these people can take a cure. But the government has no funds or means to establish such institutions."

"In Louisiana, the Legislature went so far as to make a law which parallels the Harrison law, and which has checked the narcotic addicts. But the innocent ones, those who can find relief for painful mal-adies only through the use of drugs, must be attended to. And it is for this reason that these physicians and pharmacists have gathered here tonight to formulate plans for the assistance of the city and the county and to take up this matter with the State Board of Pharmacy."

ESTATE TO CHILDREN.

Harvey Left Ranch Property Valued
at \$70,000 in Mexico.

Eight children of James Clay Harvey, who died at Vera Cruz, Mex., December 14, 1914, will share in his estate, according to a petition for letters of administration filed yesterday. The petition refers to property in this county valued at \$70,000. Harvey, a resident of Los Angeles, was killed in the Mexican revolution. His estate was divided among the children, according to a will left there. It was said that Harvey, constantly ill, had been in the assistance of the city and the county and to take up this matter with the State Board of Pharmacy."

WASHINGTON MAIL

AWAITS CLAIMANTS.

The following-named persons are requested to call at room 105, Federal Building, for mail which is being held for them there from Washington, D. C. For further information call at the Soldiers' and Sailors' Replacement Bureau, 226 South Broadway.

FACE TWO CHARGES.

Amelia Grief, accused of forgery and of recording a false document, was held to answer yesterday by Justice Forbes. It was charged that a deed to property in Watts was given the defendant by Wentzel Ziska, but that she added several lots in Sawtelle and filed the instrument. The defendant is being held in the City Jail for an alleged attack upon Mrs. Merritt Ziska, the complainant. Deputy District Attorney Glover prosecuted the case.

GIVEN PROBATION.

Aaron Overholt, 15, and Frank Weaver, 19, who were "buddies" and were accused of twice burglarizing the store of the Emerson Shoe Company, were released on two years probation yesterday by Judge Weller. Jesse Shafer, their attorney, assured the court that the youths would secure employment at once and follow the straight and narrow path.

THOUSANDS ASK FOR
RETURN OF SOLDIERS.

PARENTS OF MEN IN SIBERIA
SEND APPEAL TO PRESIDENT
HOPING FOR ACTION.

At a meeting held by the parents of the American soldiers serving in Siberia, in the auditorium of the Y.W.C.A. at Third and Hill streets, last night, a petition was forwarded to President Wilson containing the signatures of 25,000 Los Angeles residents, calling upon him to return the troops at once. It is said that 3000 California men are with the Army of Occupation and that more than 100 are from Los Angeles. They are members of the Twenty-seventh and Thirty-first Infantry.

Addresses were made by Capt. Fred Halmos, who served for a long period in Russia, and by J. Miles who was with the Thirty-first Regiment. It is said that the authorities in Washington have promised relief several times. At the close of the meeting it was working for the return of the soldiers, will leave for Washington shortly to present the petition of the President and to stay at the capital until some action is taken. She is being backed by the parents here and has the support of relatives of soldiers in the Middle West from whom a petition was sent to Washington bearing 100,000 names.

In some instances soldiers have not been heard from for seven months and it was stated at the meeting that no satisfaction could be obtained from the government as to their location and condition. The committee appointed to cooperate with Mrs. Thomas consists of B. B. Langevin, Mrs. Berthold Baruch, F. A. Leonard, Mrs. H. E. Wells, Mrs. E. H. Ashwood and Miss Gertrude Hand.

AUTO OVERTURNS.

Girl Is Injured and Machine De-
stroyed by Fire.

Attempting to make a short turn at Twenty-fifth street and Maple avenue last night, D. H. Willes, of 2818 South Maple avenue, caused the automobile which he was driving to overturn, injuring Miss Elizabeth Long, 16 years of age, of the same address. Willes explained that when the car overturned the gasoline tank exploded, which caused the destruction of the car. The fire was extinguished by the fire department. Miss Long was removed to her home suffering from serious bruises.

UNDERWRITERS WANT
NEXT CONVENTION.

NATIONAL DELEGATES AT BAN-
QUET TO PRESIDENT PLAN
FIGHT AT COMING MEETING.

At a banquet given last night in honor of Jonathan K. Voshell, president of the National Association of Life Underwriters, the support of the delegates to the annual convention, to be held in Pittsburgh shortly, was pledged to bring the national gathering to Los Angeles in 1921. If successful, this will be the second time within five years that the underwriters have met here.

Last night's affair was given by the Los Angeles Life Underwriters' Association to the national president, who is visiting here. Mr. Voshell is touring the country and meeting the insurance men of all the large cities. The meeting last evening was held in the auditorium of the Pacific Mutual Life Insurance Company, at 513 West Sixth street, and was attended by 200 members and their wives. An address was made by Frank E. McMahon, preceding Mr. Voshell's speech.

Father Reports Disappearance of
Attractive Daughter.

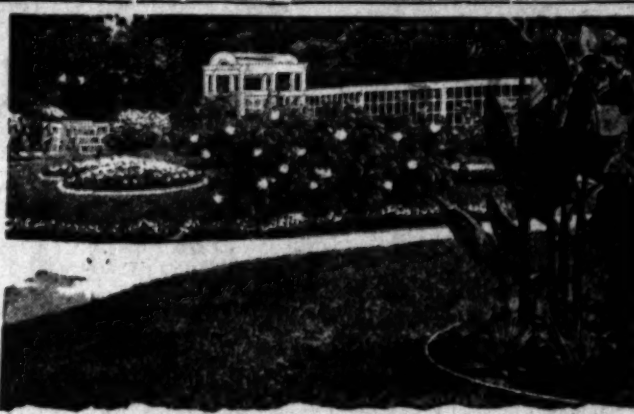

The police were asked last night to find Miss Irene Smith, 17-year-old daughter of E. Smith, of 1139 West Seventh street, who, Mr. Smith declared, disappeared early yesterday with Christian Mundy, a moving picture actor.

Mundy is well known at the police station as he is now being sought for violation of his probation on charges of forgery and burglary. Miss Smith, when last seen, wore a short tan dress and black pumps. She is described as an attractive-looking girl, weighing 100 pounds and about 5 feet tall.

FUGITIVE DOESN'T

WANDER FAR AFIELD.

Information was received from Calexico, yesterday, of the capture of Leopold W. A. Thomas, who escaped from the Douglas (Ariz.) jail Dec. 26, 1917. He will be returned to Arizona tomorrow. Thomas was in jail on the charge of violating the Espionage Act, and for a year and a half Federal officials have been looking for him. He was found within a short distance of where he gave the officers the slip.

Own a Lot Adjoining Beautiful Gardens Like This—in Walnut Park.

Announcing an Advance in the Prices of Walnut Park Lots

Walnut Park prices have not been raised for four years—in spite of the extensive development and the general advance in values throughout the entire Walnut Park district. A very material advance is scheduled, however, for the immediate future.

Several months ago, before building costs were what they are today, we advised the public to buy houses. Those who followed this advice are genuinely grateful today. Our advice now is to buy Walnut Park lots before the advanced prices become effective.

Every lot contains full-bearing, income-producing walnut trees. The lots are located within a block of a 5-cent yellow car line, near Long Beach boulevard, in one of the most beautiful, thoroughly desirable home districts in Southern California, where every city convenience is available. Good locations today for \$800—also a few desirable sites for less. The very easiest monthly terms. Less desirable sites, farther out, are selling at higher prices.

What One Man Says About the Investment Value of His Walnut Park Homesite:

GENTLEMEN—

Since purchasing a bungalow and lot from your company about two years ago, we also bought the adjoining lot and find it to be one of the best investments that we possibly could have made.

The walnuts alone show a good dividend, but by raising a few chickens on this lot, it shows a dividend of at least 20% to 30% on the investment.

Anybody living in Walnut Park can do the same thing by exercising just a little every day.

Yours very truly,

M. C. TURPIN.

Youth, on Probation for Joy-riding,
Is Warned.

Warning was given Henry Murray, 19, yesterday by Judge Weller that he must cut down on his expenses and make them commensurate with his earnings. Murray was granted probation after pleading guilty to joy-riding in an automobile not his own. Murray told the court he earned \$1.40 a day, but said that did not nearly meet his expenses.

"I thought I was doing well when I was your age when I earned 125 cents a month," said the court. "For a boy, you are getting good wages and will have to cut down on your ex-

The Fascination of Furnishing "A Home of Our Own"

has decided hundreds of families in favor of having a home that may become a homestead—an assured heritage for future generations.

Few persons can thoroughly enjoy the "fixing up" of a rented dwelling. There's a certain restraint, a lack of inspiration to invest in furniture of permanent interest and value.

The world cannot possibly have too many REAL homes—certainly Southern California cannot.

Let us help you to see, first in your imagination and then in reality, how wonderful a HOME OF YOUR OWN may be made—this fall.

Furnishers of Successful Homes **Barker Bros** 724-38 South Broadway The Store of Smiling Service

Clay Roofing Tile "The Aristocratic Roof."

Within Reach of the Small Home Builder

BURNED Clay Roofing Tile is first in beauty, first in durability and first in fire resisting qualities. Its handsome dull red or green color will make any home more beautiful. The surface is fire proof, it resists time and the elements. The color does not wear off and time can not change it. Burned clay is certainly "The Aristocratic Roof". Sparks from the chimney or from a nearby blaze cannot set fire to a burned clay roof. Many fires are caused by falling sparks but with this type of roofing material there is no such danger and the home owner rests in an assured security.

From Nothing To a Million Dollars a Year SERVICE

Three years ago the Blue Diamond Plaster Co. was born. At that time the vice president of the company prophesied that, due to adverse business conditions, we were certainly doomed to failure.

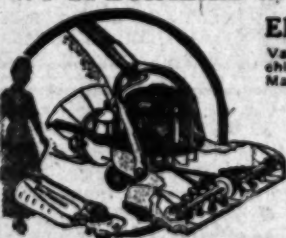

What is the reason for this enormous and unusual growth? Our answer is that we have made a thorough and deep study of the meaning of the word "SERVICE" and have equipped ourselves in such a way that we are in a position to give it at all times.

Watch this space each week and you will attempt to acquaint you with our numerous products—many of which you probably know nothing about.

Attractive Home at Moderate Cost.

Plans for this house were prepared for The Times by Ross Gordon Montgomery, local architect, of 622 Story Building. The house was designed for a narrow lot, hence the plan is compact to meet the conditions of the site and the appropriation. The interior is finished in white cedar throughout, except for certain mahogany features, such as the stair treads and hand rail of the

colonial staircase. Oak floors are used throughout. The sun room is inclosed with French doors and lattice, through which vistas of a garden may be obtained. The bath rooms are in tile. The residence may be built for from \$5000 to \$5500.

(Note:—Other home-building plans of moderate cost will appear as a feature of this page from time to time.)

HOME-OWNING.

BY MEREDITH P. SNYDER Mayor of Los Angeles.

Home-owning is the most natural and essential step in the direction of constructive citizenship. When a man becomes a home-owner he rises to a position of importance in his community seldom enjoyed by the renter. His position as the master of his own property commands the respect of his neighbors and his business associates. He has automatically become a factor in the progress of his city.

He and his family are better secured through the permanence that property ownership gives. If he has children, the future for them is better paved by being substantially safeguarded. He has given them an example of thrift, the value of which is undeniably. The opportunity for self-expression and for participation in those activities which belong particularly to the home-owner are advantages which are of prime importance in developing human character.

The greatness of an American city is measured not so much by the individual wealth of its citizens as by the number of its home-owners. Wherever we find a community of homes we find also order and organization; we find progressively-minded citizens; we find people who prize their liberties and are willing and anxious to promote the best interest of the community life.

Home-ownership should be the aim of our people, and every encouragement should be given to those whose interest in the future of the city is so keenly felt. Los Angeles will always pay one hundred cents on the dollar, and in addition to this will come benefits in physical and spiritual satisfaction as well as in enlarged opportunity for better citizenship that are bound to outweigh the costs in money.

THIS CITY NATURAL BUILDING CENTER.

MATERIALS ARE CHEAPER AND HANDIER THAN ELSEWHERE, CONTENT BUILDERS.

Los Angeles architects and builders contend that this city offers practical advantages to the home builder not possessed by any other community in America. They refer to the great variety of home building sites—from the level lot in the city to the foothill and seashore localities—to be found here, to the fact that Los Angeles is the world's greatest lumber port, with an undiminished supply of both soft and hard woods always available, and to its immense local production of cement, brick and clay products for building purposes.

While building materials range generally high throughout the country, the prices of lumber, cement and brick, according to local building authorities, are lower here than in other large cities. They point to this fact as one not to be overlooked by those contemplating the erection of a home, and one which has undoubtedly influenced the extensive home-building movement now under way.

It is generally conceded that the shortage of desirable homes is also growing a large factor in spurring new owners to enter the home-building field. Despite the increasing volume of building now going forward, builders here say that the supply will not catch up with the demand for the next two years. They look to see more homes built by private owners this and next year than has been so during any similar period of Los Angeles' development. The demand now is especially keen for homes ranging in price from \$2500 to \$6000.

\$18,000 AN UNUSUAL BARGAIN

This is one of the finest white cement homes located in the heart of the Wilshire district, being located on a paved street, one block north of the West 5th street car line.

Exceptionally large living-room, dining-room and library, all finished in the finest mahogany. Sunny breakfast room, large kitchen, back porch and maid's room and bath on the first floor. Second floor consists of four large sleeping rooms, two sleeping porches, two fine tile baths; two cedar closets. The grounds are established and have beautiful flowers to front and rear.

This is an exceptional bargain and could not be duplicated today for anywhere near the price.

For this and other high-class homes, see

C. Moore, two bungalows and garages, 116 and 122 Ridgewood place, \$4950 each; Ridley-Paport Company, bungalow and garage, six rooms, 1423 La Brea avenue, \$1150; Charles Schubert, bungalow and garage, six rooms, 1814 North Oxford avenue, \$2500; Isreal Abraham, bungalow, six rooms, 4044 South Hobart boulevard, \$2500; Ben L. Gubser, two bungalows and garages, six rooms each, 222 and 224 North Harvard boulevard, \$2100 each; Charles T. and Rose M. Scott, residence and garage, 12 rooms, 722 South Western avenue, \$12,500.

STREET IMPROVEMENTS.

City Engineer Instructed to Prepare for Work in San Pedro.

The City Engineer yesterday recommended to the City Council that the sum of \$16,531.25 be appropriated to complete payment of the city's portion of the cost of the improvement at Sherman drive and West boulevard. The report was referred to the Finance Committee.

The City Engineer was instructed to prepare and present an ordinance for the improvement of Eighth, Ninth, Tenth, Eleventh, Twelfth, Thirteenth, Fourteenth and Fifteenth streets, between Myer avenue and Leland street, San Pedro; also Leland, Alameda and Myer streets, between Seventh and Fourteenth streets, by private contract.

IF YOU'RE SHY YOU HAVE ANOTHER CHANCE.

It having come to the unofficial attention of Internal Revenue Collector Carter that there are a number of income and excess profits taxpayers in the local district who have now concluded that they did not make an exact report, along the lines indicated, as to their income for several years past, and especially in the latest report, a way of salvation for these persons has been opened.

The Commissioner of Internal Revenue has decided that if amended returns are tendered, and the additional tax voluntarily made, they will be accepted.

RECOVER MORE LOOT.

Deputies Say They Found Valuable of Actors in Venice House.

Additional loot, which Earl Carl DuBert, a salesman, and Jay DuPont, a motion-picture actor, are accused of stealing, has been recovered by Deputy Sheriff Fox and Nolan; it was announced yesterday.

At a house occupied by the two men on the Speedway, Venice, the officers say, were found goods valued at \$1000, said to have been stolen from the residence of Nigel Barry, a motion-picture actor. A cigarette case, valued at \$400, was given, it was said, to an acquaintance of the two men and subsequently reached a woman, who yesterday returned it to the officers. A rifle, said to have been stolen from Jack Pickford, was also recovered.

RECORD AGAINST HIM.

Youth Who Applied for Probation Sent to San Quentin.

Juvenile records from 1913 until about six weeks ago, showing "every line of dishonesty in the way of stealing," said to have been committed by Norton Shaw, according to the report of Probation Officer Dodds, were produced yesterday at the hearing of an application of Shaw for probation. Judge Walker sentenced Shaw to San Quentin, from one year to life for robbing T. R. Kammermeyer of \$21.60. Shaw was also accused of robbing Leo Carrillo of \$10.34. He pleaded guilty to the first charge. He was also said to have stolen six automobiles.

FIRST MORTGAGE MONEY.

Liberal loans made for the erection of houses, bungalow courts, flats or stores on a sane and reasonable monthly payment plan. Also STRAIGHT 3 or 5-year loans at 6% and 8% per cent. on CITY or COUNTRY property from San Joaquin Valley to the Imperial Valley.

CHILD'S CASE MUST WAIT DIVORCE SUIT

COURT HAS NO JURISDICTION IN DISPOSING OF CHILD TWO WOMEN CLAIM.

Because a divorce action is pending between Ralph and Noemah Nicholson, Judge Reeve of the Juvenile Court yesterday declared that his court does not have jurisdiction with reference to the custody of Ruth Nicholson, 5 years old, sought by the mother, Noemah. The child's welfare will be determined when the divorce suit is tried. The application of a writ of habeas corpus, filed by the child's grandmother, Mary Nicholson, for the possession of Ruth, now in charge of the juvenile authorities, was taken under submission. Mrs. Nicholson claims Ruth was turned over to her by Noemah, the father, and Ruth legally adopted in Washington State.

Noemah Nicholson asserts the adoption is void. The latter's writ of habeas corpus for her release from custody on the charge of kidnapping Ruth will be heard in Department 17 on Monday. Attorney Morfoot and McCroskey represent the grandparent.

After the proceedings in Juvenile Court, Mrs. Noemah Nicholson was brought into Presiding Judge Walker's court, where the District Attorney's office moved to dismiss the writ of habeas corpus. It was stated that Mrs. Nicholson was willing to return to Fresno, where she was charged with kidnapping her daughter. The writ was dismissed.

Commonwealth Petroleum Rights

Commonwealth Petroleum Corporation will give stockholders of record Sept. 5, 1919, the privilege of purchasing one share of new stock at \$10.00 per share for each two shares of stock held. With this least selling at \$10.00, the present price, these "rights" are worth \$5.00 per share. A complete report on this active security will be sent free upon request.

LAND LEASING BILL

The passing of the bill should cause a steady appreciation of a number of the local oil leases. A comprehensive analysis of any of the companies affected by this bill will be sent free upon request.

DAILY TRADE TALK.

Los Angeles After Bankers' Convention; Local Financing; Short Stories.

BY CHAPIN HALL.

Los Angeles will send a representative delegation to the forty-fifth annual convention of the American Bankers' Association, which meets in St. Louis during the week of September 29. Financial questions of great importance will be discussed at this time by 5000 delegates representing 20,000 banks in the United States, Canada, Porto Rico and the Philippine Islands. If President Wilson returns from his western trip in time an effort will be made to secure his attendance.

The Los Angeles delegation will go thoroughly equipped to bring the 1920 convention to this city, a resolution authorizing the invitation having been adopted by the State Bankers' Association at the Catalina convention last June.

One of the principal measures to be discussed is the furnishing of foreign credits to facilitate the export trade. The railroad situation will receive a large share of attention and the labor crisis will be gone through to bring the delegates to study conditions that have brought about the present high cost of living and to propose a general meeting to prevent further advances in the cost of the necessities of life.

Many of the problems which will occupy the time of the delegates are new in the financial affairs of this country. It is recognized by our own bankers as well as generally throughout the country that America will have to do a large part of the world's financing, and that the sudden reversal of this country's position from a debtor to a creditor nation requires a readjustment of our banking system. It is to be pointed out that we must encourage better relations between labor and capital and that in dealing with the railroad situation the paramount issue is the service that must be rendered.

Among the notables who have been invited to address the convention are David R. Francis, United States Ambassador to Russia; Homer L. Ferguson, president of the Chamber of Commerce of the United States; and Henry P. Davison, former head of the American Red Cross.

The Stock Market.

There was a wide spread in the local market yesterday with prices averaging a decline, a condition, however, which was reflected throughout the United States. The heavy call for National Pacific continued the decline in sentiment, prices were down to 91 and were offered freely at that price with no holders willing to pay more than 85 at the close. National Pacific continued the decline in sentiment, prices were down to 91 and were offered freely at that price with no holders willing to pay more than 85 at the close.

NEW YORK STOCK EXCHANGE

[BY A. P. NIGHT WIRE]
NEW YORK, Sept. 5.—Labor conditions overhauled the stock market again today, latest developments affecting the steel and iron workers causing a sharp reaction after an early period of comparative firmness.
The Gompers' telegram to President Wilson directed renewed attention to the tense situation in that important industry.
Further weakness in exchange, with francs and lines at new minimums, helped to bring about the reaction, lowest quotations ruling in the last hour, with rallies of one to four points at the close. Sales amounted to 1,425,000 shares.
Stocks which suffered greatest impairment included Crucible Steel, at an extreme decline of 12 1/2 points; Baldwin Locomotive, General Motors, Studebaker, Stutz, American Woolen, Central Leather, Atlantic Gulf, Barrett Company and Utah Copper.
United States Steel registered a gross reversal of three points, but displayed some support in the final dealings, other standard shares, including the better known rails, also making moderate improvement. Oil almost alone ended with variable gains, marked strength having been shown by Mexican and California Petroleum and Transcontinental, shipping and refining firms.
Bonds were irregular on reduced dealings. Total sales, par value, aggregated \$5,650,000.
United States bonds were unchanged on call.

FINANCIAL AND TRADE REVIEW.

(Continued from Tenth Page.)
decision to withhold the new Good-Tire and Rubber preferred stock issue from the Los Angeles market, but at the same time the advantage of securing a wider geographical distribution was recognized. Advice from the north indicates a ready absorption of the issue, which is for \$2,000,000 preferred and \$1,000,000 common, the latter to be taken up by the parent company.
Metropolitan Stores.
Since the announcement made in The Times several weeks ago that the Metropolitan chain system of stores was seeking an entrance in the Los Angeles market, an effective sales organization for the distribution of the new \$20,000,000 expansion issue of stock has been built up by C. M. Knox, resident manager for H. W. Dubick & Co., which is underwriting the issue. Although the Metropolitan Stores Company is not yet in operation, the west coast branch, there will be an early establishment in Los Angeles, San Francisco, Portland and Seattle, to be followed later by an invasion of the smaller cities. The Metropolitan is a 5 to 10-cent chain proposition, which shows 24.6 per cent. increase for the first six months. The Los Angeles location has not yet been secured, but several likely sites are under consideration and announcement is expected soon. It is the purpose to establish at least ten stores on the Pacific Coast within the next few months, this number to be gradually increased. The present financing is said to be sufficient to open about eighty new stores which will be given attractive geographic distribution. Since the first of the year the common stock has been increased from \$25 to \$35 and another rise to \$75 is soon to follow.
Thirty Months' Prosperity.
Two thousand questionnaires sent out by a New York brokerage house to representative business men throughout the United States revealed the almost unanimous belief that at least two years of prosperity are ahead. This belief rests on the fact that credit is abundant, savings bank deposits increasing, crops above normal and business generally dominated by a spirit of optimism. Against the optimistic picture there is noted only a general deficiency of labor, an unwillingness to accept a further advance in freight rates and the general prevalence of speculation, always incident to prosperity with consequential high prices.
New Wrinkle in Strikes.
New York has developed something new in the way of strikes. Most employers believe that there is nothing in the world left for the chronically dissatisfied hired hand to demand, but a group of salesmen in a metropolitan store has demonstrated the extension of their lunch hour from one hour to one hour and a quarter and threaten to walk out if they don't get it.
